

The Giussani solution to calibration and verification problems on ships.

The kit is made of basic tools from our production line, designed for immediate use, even in the least convenient situations, equipped with all accessories necessary for field use, supplied with manuals in Italian and English and S.I.T. traceability.

- Temperature: Room T. \div 650 °C
- Stability: $\pm 0,3$ °C
- Resolution: 0,1 °C
- Insert holes depth: 143 mm
- Standard insert: 4 holes (\varnothing 3,2 - 5 - 6,5 - 9,5 mm)

PYROS 650

Thermostatic dry block calibrator

BT20K

Manual pressure generator

- Pressure: 0 \div 30 bar
- Digital or analogic pressure gauge
- Test fluid: air
- Carrying case with set of accessories

- Pressure: -1 \div 35 bar
- Digital or analogic pressure gauge
- Test fluid: air
- Carrying case with set of accessories

LPP30
Manual vacuum and pressure generator

BT350-K

Manual pressure generator

- Pressure: 0 \div 350 bar
- Digital or analogic pressure gauge
- Test fluid: water/oil
- Carrying case with set of accessories

- Pressure: 0 \div 700 bar
- Digital or analogic pressure gauge
- Test fluid: water/oil
- Carrying case with set of accessories

LPP700
Manual pressure generator

CERTIFICATION:

All instruments are supplied with final testing, stability and accuracy certification traceable to S.I.T. standards.
